

AI Use-Case Prioritization Matrix

Instructions: score each dimension from 0 (not started) to 5 (operational). Record the owner, target date, evidence, red flags, and the next action. Use the completed assessment in an AI7Lab readiness workshop.

Dimension	Score	Owner / target	Evidence and next action
Business value	0-5		
Feasibility	0-5		
Data availability	0-5		
Risk	0-5		
Integration effort	0-5		
Time to value	0-5		
Adoption	0-5		
Reversibility	0-5		
Ownership	0-5		

Scoring: 0-20% Initial; 21-40% Emerging; 41-60% Defined; 61-80% Operational; 81-100% Optimized.

Red flags: no accountable owner, no representative evidence, unclear decision authority, untested failure paths, or no rollback and incident process.
