

Enterprise AI TCO Calculator

Instructions: score each dimension from 0 (not started) to 5 (operational). Record the owner, target date, evidence, red flags, and the next action. Use the completed assessment in an AI7Lab readiness workshop.

Dimension	Score	Owner / target	Evidence and next action
Integration	0-5		
Data preparation	0-5		
Inference	0-5		
Media processing	0-5		
Storage	0-5		
Monitoring	0-5		
Human review	0-5		
Testing	0-5		
Failed cases	0-5		
Support	0-5		

Scoring: 0-20% Initial; 21-40% Emerging; 41-60% Defined; 61-80% Operational; 81-100% Optimized.

Red flags: no accountable owner, no representative evidence, unclear decision authority, untested failure paths, or no rollback and incident process.
