

Production Go-Live Checklist

Instructions: score each dimension from 0 (not started) to 5 (operational). Record the owner, target date, evidence, red flags, and the next action. Use the completed assessment in an AI7Lab readiness workshop.

Dimension	Score	Owner / target	Evidence and next action
Exact test cases	0-5		
Load	0-5		
Security	0-5		
Failure injection	0-5		
Rollback	0-5		
Monitoring	0-5		
Cost limits	0-5		
Model versions	0-5		
Human escalation	0-5		
Support ownership	0-5		
Incident response	0-5		

Scoring: 0-20% Initial; 21-40% Emerging; 41-60% Defined; 61-80% Operational; 81-100% Optimized.

Red flags: no accountable owner, no representative evidence, unclear decision authority, untested failure paths, or no rollback and incident process.
